

FWTW

FABRICWALL

Stretch Systems for Walls & Ceilings

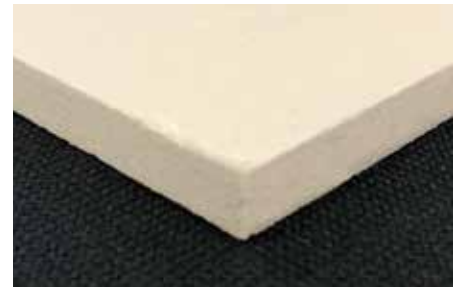

Tackable Core

FabricWall's Tackable Core (FWTW) is an inexpensive, excellent tackboard with minimal sound absorption. The FWTW core's mineral fiber core performs as a tacking surface while retaining its density, size and shape over time.

TW's mineral fiber core:

- Does not absorb or expel moisture
- Will not warp, expand or shrink
- Is lightweight
- Is easy to install

Choose FWTW core for places that need a stretch fabric system for decorative looks with a tackable wall core, such as a classrooms, presentation rooms or conference rooms.

Core

1/2", 5/8" mineral fiber board

Sizes

4'x10'

Flammability

All components have a Class "A" rating per ASTM E84
