

NEW

NEW TUCKING TOOLS BY FABRICWALL

FabricWall's new tucking tools were created for the professional installer that wants a fabric-tucking tool made for reliable and fast installations. Made from lightweight co-polymer, these rugged tools are designed to use all day for many years.

Features:

- Flexible, durable stainless steel blades
- Lightweight handles
- Textured grips to avoid slipping
- Holes and cavities designed as tie-off points while installing ceilings or overhead

Standard Three Piece Tool Package

(Individual tools and blades available)
